COLLISION WITH “MOBY FANTASY”**

On 21st June 2006, in dense fog suddenly materialising at sea in the vicinity of the port entrance in Olbia (Sardinia), passenger ro/ro “Nuraghes” collided with passengers ro/ro “Moby Fantasy”. The collision caused a long breach in the hull of “Nuraghes”(about 30 mt. length). Conversely the fore of the “Moby Fantasy” was heavily damaged with ingress of water which did require immediate assistance by part of tugs. Both vessels entered Olbia port where they were safely moored.

We have been instructed to act on behalf of P&I Club and H&M Underwriters to investigate the casualty and protect “Nuraghes” interests before Maritime Authorities Inquiry as well as Civil and Criminal proceedings opened following the event.
